ABSTRACT

Dissertations in the fields of environmental, conservation, and outdoor education are listed in this document. Many of the titles were taken from "Dissertation Abstracts" through November, 1975 with the remainder of the titles coming to the editors' attention from other sources. Each listing gives the author's name, title of work, university and date of publication. University Microfilm order numbers are also provided to assist in ordering copies of dissertations available from this source. Three hundred-eighty titles are listed, the majority of which were presented in the early 1970's. One paper, however, was written in 1929, four papers in the 1930's, and 17 in the 1940's. Approximately 67 papers come from the 1950's and 77 from the 1960's. (DS)

DECEMBER 1975

Included here are those doctoral dissertations that pertain to "Eco-Education" listed in Dissertation Abstracts through November 1975 and those coming to our attention from other sources. University Microfilm's order number is provided to assist users in obtaining copies of the dissertations they wish to purchase (The cost runs about $11.00 per microfilmed dissertation).

Copies of the dissertations that are obtainable through University Microfilms can be used at the Research Room, Lorado Taft Field Campus Northern Illinois University. It would be appreciated if readers would bring any additional pertinent dissertations that they know about to the attention of the compilers.

Taft Campus Occasional Papers provide a means of sharing professional documents prepared primarily in connection with the on-going program in the Department of Outdoor Teacher Education, Northern Illinois University, but which may be more useful if given a wider distribution. Unless otherwise noted, they are not copyrighted.
